

A woman with long dark hair, wearing a yellow and green striped tank top, is looking at a large white milk jug with a blue cap in a grocery store aisle. The background is filled with shelves of various products, including a large green and yellow sign.

GROCERY STORES THAT GO ELECTRIC

Stay Up and Running When the
Power Is Out

Lower Electricity Bills 24x7

Earn Revenue from Energy Assets

Ask if You Qualify to Receive the Go Electric System **ENTIRELY FREE OF COST**

FORTIFY YOUR STORE WITH RESILIENT **POWER** + ENERGY **SAVINGS**

WHY GO ELECTRIC?

Extended power outages don't have to bring your store to a halt.

Go Electric ensures lighting, refrigeration, point of sale and other critical systems stay on when the grid is down. Perishables stay fresh and essential supplies remain available when communities need them most. Go Electric also lowers daily energy costs for grocery stores 24x7. If your utility offers incentivized demand response programs, all equipment and installation for the Go Electric system comes *completely free of cost*.

LYNC SECURE® =

Uninterruptible Power +
Energy Efficiency

LYNC DR® =

LYNC Secure + Demand
Response Benefits

WHICH SOLUTION IS RIGHT FOR YOU?

LYNC Secure is the groundbreaking Go Electric solution that is the first to combine **robust and resilient uninterruptible power** with **automated energy efficiency and savings**.

Where demand response is available, LYNC DR provides all LYNC Secure functionality plus the ability to earn revenue with **no cost for equipment and installation**.

Reliable Power At All Times

Stay open when the grid is down with uninterruptible power

Safety and Consistency

Ensure secure power from all on-site sources, including renewables

Lower Electricity Bills

Automated energy efficiency lowers electricity costs all day

Monetize Your Energy Assets

Energy assets earn revenue with demand response

Use More Clean Energy

Make rooftop solar available all day with energy storage
