

A photograph of two surgeons in an operating room, wearing blue scrubs and masks, performing a procedure. The scene is dimly lit with a blue tint, and surgical instruments are visible on the floor.

HOSPITALS THAT GO ELECTRIC

Save on Uninterruptible Power

Lower Electricity Bills 24x7

Maximize Clean Energy Use

Earn Revenue from Energy Assets

Ask if You Qualify to Receive the Go Electric System **ENTIRELY FREE OF COST**

UNINTERRUPTIBLE POWER + ENERGY EFFICIENCY FOR HOSPITALS

WHY GO ELECTRIC?

Uninterruptible power is pivotal for safeguarding patient health, but it also incurs huge costs.

Go Electric reduces the energy consumed by and dollars spent on this essential asset. Go Electric also lowers daily energy costs for hospitals 24x7. If your utility offers incentivized demand response programs, all equipment and installation for the Go Electric system comes *completely free of cost*.

100% Uptime

Ensure patient safety by eliminating uninterruptible power latency

Lower Electricity Bills

Automated energy efficiency lowers electricity costs all day

Cleaner Energy Footprint

Make the most of battery storage and clean energy

Safe and Consistent Power

Synchronize all on-site energy equipment, including renewables

Monetize Your Energy Assets

Energy assets earn revenue with demand response

LYNC SECURE® =

Uninterruptible Power + Energy Efficiency

LYNC DR® =

LYNC Secure + Demand Response Benefits

WHICH SOLUTION IS RIGHT FOR YOU?

LYNC Secure is the groundbreaking Go Electric solution that is the first to combine **robust and resilient uninterruptible power** with **automated energy efficiency and savings**.

Where demand response is available, LYNC DR provides all LYNC Secure functionality plus the ability to earn revenue with **no cost for equipment and installation**.
