

# INDOOR AGRICULTURE FACILITIES THAT **GO ELECTRIC**

---

Stay Up and Running When the  
Power Is Out

Lower Electricity Bills 24x7

Earn Revenue from Energy Assets

Ask if You Qualify to Receive the Go Electric System **ENTIRELY FREE OF COST**

# FORTIFY ANY INDOOR GROWING FACILITY WITH RESILIENT **POWER** + ENERGY **SAVINGS**

## WHY GO ELECTRIC?

### Extended power outages don't have to put your crop in danger.

Go Electric keeps lighting, HVAC, security and other critical systems operational, ensuring plants continue to grow properly even when the grid is down. Go Electric also lowers daily energy costs for your facility 24x7.

If your utility offers incentivized demand response programs, all equipment and installation for the Go Electric system comes *completely free of cost*.

**LYNC SECURE® =**

Uninterruptible Power +  
Energy Efficiency

**LYNC DR® =**

LYNC Secure + Demand  
Response Benefits

## WHICH SOLUTION IS RIGHT FOR YOU?

LYNC Secure is the groundbreaking Go Electric solution that is the first to combine **robust and resilient uninterruptible power** with **automated energy efficiency and savings**.

Where demand response is available, LYNC DR provides all LYNC Secure functionality plus the ability to earn revenue with **no cost for equipment and installation**.

### Reliable Power At All Times

Stay operational when the grid is down with uninterruptible power

### Safety and Consistency

Ensure secure power from all on-site sources, including renewables

### Lower Electricity Bills

Automated energy efficiency lowers electricity costs all day

### Monetize Your Energy Assets

Energy assets earn revenue with demand response

### Use More Clean Energy

Make on-site renewables available all day with energy storage
