

# GAS STATIONS THAT GO **ELECTRIC**

---

Stay Up and Running When the  
Power Is Out

Lower Electricity Bills 24x7

Provide Critical Services for  
Communities During Outages

Ask if You Qualify to Receive the Go Electric System **ENTIRELY FREE OF COST**

# FORTIFY GAS STATIONS WITH RESILIENT **POWER** + ENERGY **SAVINGS**

## WHY GO ELECTRIC?

### Don't let power outages bring your station to a halt.

Go Electric ensures critical services – from pumps to vehicle maintenance to point of sale systems - remain available when the grid is down. During business as usual, Go Electric also lowers daily energy costs 24x7.

If your utility offers incentivized demand response programs, all equipment and installation for the Go Electric system comes *completely free of cost*.

**LYNC SECURE® =**

Uninterruptible Power +  
Energy Management

**LYNC DR® =**

LYNC Secure® + Demand  
Response Benefits

## WHICH SOLUTION IS RIGHT FOR YOU?

LYNC Secure® is the groundbreaking Go Electric solution that is the first to combine **robust and resilient uninterruptible power** with **automated energy management and savings**.

Where demand response is available, LYNC DR® provides all LYNC Secure® functionality plus the ability to earn revenue with **no cost for equipment and installation**.

### Reliable Power At All Times

Stay open when the grid is down with uninterrupted power

### Safety and Consistency

Ensure secure power from all on-site sources, including generators and/or solar panels

### Lower Electricity Bills

Automated energy management lowers electricity costs

### Monetize Your Energy Assets

Energy assets earn revenue through demand response programs

### Use More Clean Energy

Make rooftop solar available all day with energy storage
