

INDUSTRIAL FACILITIES THAT **GO ELECTRIC**

Stay Up and Running When the
Power Is Out

Lower Electricity Bills 24x7

Earn Revenue from Demand
Response

Ask if You Qualify to Receive the Go Electric System **ENTIRELY FREE OF COST**

FORTIFY ANY INDUSTRIAL FACILITY WITH RESILIENT **POWER** + ENERGY **SAVINGS**

WHY GO ELECTRIC?

Put your backup power to work all day. Energy security is essential to safeguarding industrial operations and lowering energy costs. Go Electric's solution, LYNC Secure® uniquely combines uninterruptible power with energy efficiency in a turnkey system that ensures critical loads stay operating when the grid goes down. LYNC DR® also earns revenue through demand response and lowers facility energy costs 24/7 through load shifting and power factor correction.

With Go Electric, industrial operations are secure, reliable, and energy efficient, and critical power systems pay back.

LYNC SECURE® =

Uninterruptible Power +
Energy Efficiency

LYNC DR® =

LYNC Secure +
Demand Response Benefits

WHICH SOLUTION IS RIGHT FOR YOU?

LYNC Secure is the groundbreaking Go Electric solution that is the first to combine **robust and resilient uninterruptible power** with **automated energy efficiency and savings**.

Where demand response is available, LYNC DR provides all LYNC Secure functionality plus the ability to earn revenue with **no cost for equipment and installation**.

Reliable Power At All Times

Stay operational when the grid is down with uninterruptible power

Safety and Consistency

Ensure secure power from all on-site sources, including renewables

Lower Electricity Bills

Automated energy efficiency lowers electricity costs all day

Monetize Your Energy Assets

Energy assets earn revenue with demand response

Use More Clean Energy

Make onsite renewables available all day with energy storage
